Huntington Beach, CA · 5 units · Acquired April 2017 · Sold April 2018

LEVERED RETURN	PROFIT
27.17%	\$416,645

THE OPPORTUNITY

VWC's first transaction of the modern fund era — a small, sub-institutional five-plex in one of Orange County's most populated and supply-constrained beach cities. At a \$2.0M acquisition, the deal sat squarely in the "too small for institutions, too big for most retail" zone where VWC operates by design.

THE STRATEGY

Acquire below replacement cost, renovate to market standard, and reposition rents in a coastal market where new supply is functionally capped. Total renovation of \$171K (8.5% of acquisition) — a light-but-purposeful capital plan. Twelve-month hold from close to sale.

INVESTOR TAKEAWAY

A textbook one-year value-add lifecycle. Conservative leverage (37% LTV) meant the return was earned through operations and resale execution — not financial engineering. This deal set the template VWC has repeated 22 more times.
