

4931 Charlene Circle

Huntington Beach, CA · 6 units · Acquired August 2019 · Sold August 2022

LEVERED RETURN 43.42%	PROFIT \$661,484
---------------------------------	----------------------------

THE OPPORTUNITY

A six-unit property on a quiet Huntington Beach cul-de-sac. The asset itself is unremarkable — what makes this deal worth studying is what came next: VWC acquired the adjacent identical sister property (4921 Charlene) 16 months later in December 2020, creating a 12-unit consolidated coastal position with shared driveway and operational economies.

THE STRATEGY

Renovate, hold through the COVID disruption, exit into the post-pandemic transaction recovery. The 35-month hold reflects the operating environment — but the post-COVID Orange County coastal market rewarded patience.

INVESTOR TAKEAWAY

A 43% levered return on conservative 39% leverage. Also the entry deal that opened the Charlene Circle micro-position — when its sister property at 4921 came up for sale, VWC was the obvious buyer because they already operated next door. Local density compounds: every acquisition makes the next one easier to underwrite, easier to operate, and easier to source.
