## THE OPPORTUNITY

An eight-unit asset in Huntington Beach — VWC's continued buildout of its core coastal-OC market. Acquired the same day as 201 Cypress (3/15/2021), reflecting VWC's ability to close two acquisitions in parallel without diluting execution.

## THE STRATEGY

Standard value-add lifecycle. CapEx of \$332K (10.7% of acquisition) covered the reposition. Held 20 months — among the shorter post-pandemic holds in the portfolio, sold into the still-elevated 2022 market.

## INVESTOR TAKEAWAY

A 39% levered return on a 20-month hold. Same-day close with 201 Cypress shows operational capacity — VWC is not a single-deal operation but a programmatic acquirer with the team and process to run multiple repositions in parallel. For passive investors, that's the difference between "we got lucky" and "we built a machine."
