

925 S. Malden Avenue

Fullerton, CA · 12 units · Acquired August 2022

EST. LEVERED RETURN 6.92%	ESTIMATED PROFIT \$168,250
-------------------------------------	--------------------------------------

THE OPPORTUNITY

A 12-unit asset in Fullerton — VWC's return to a market it knew well from the 2017 Porter acquisition five years earlier. Acquired in August 2022 alongside three other deals (Bendicron, Lincoln Ave, and shortly after, Hornblend) in a busy summer of capital deployment.

THE STRATEGY

Heavier-CapEx reposition than the typical VWC deal — \$532K (13.3% of acquisition) signals significant interior and exterior work. The asset is currently stabilized and operating, with VWC holding for cap rate normalization rather than forcing an exit.

DEAL SNAPSHOT

Acquisition Price	\$4,000,000	Loan Amount	\$2,600,000
Per Unit	\$333,000 / unit	Loan-to-Cost	52%
CapEx	\$531,750	Equity Invested	\$2,431,750
Total Cost	\$5,031,750	Est. Market Value	\$5,200,000
Hold Period	Stabilized	Exit Per Unit	\$433,000 / unit

INVESTOR TAKEAWAY

A modest projected return that reflects current market conditions, not the asset itself. The 30%+ rent uplift achieved through reposition (acquisition \$/unit to estimated market \$/unit) is consistent with the rest of the portfolio — what's compressed is the cap-rate multiplier on exit. With 52% leverage and a stabilized rent roll, VWC has the optionality to hold through the next cap-rate cycle.
