

Investor Persona Playbook

2026 / 2027 Capital Raise Strategy

Prepared for

Sanford D. Coggins

CEO & Founder, VisionWise Capital LLC

April 25, 2026

Document version 1.0 — for SDC review and approval

Executive summary

This document defines the ten investor personas and three channel-partner profiles that will drive VWC's \$10 million (2026) and \$25 million (2027) capital raise targets. Each persona was synthesized from the Buyer Profile, Transaction History, Core Values, SDC's annotated strategy notes ("What I Understand About VWC," 4/24/2026), and the founder's articulated vision.

The vision

From the founder

"I want to be the In-N-Out for my type of services — catering to all types of clientele and maintaining a pipeline of investors."

This vision shapes the entire persona strategy:

- In-N-Out means simple menu, consistent quality, beloved across demographics — the kind of operator everyone names when asked who's the best.
- "All types of clientele" means Family Offices and first-time accredited investors are both welcome — but with different products, different channels, and different conversations.
- "Pipeline of investors" means this is not a one-deal sales motion. It's a continuous, segmented engine — each persona has its own pipeline, with content, cadence, and conversion ratios tracked separately.

The strategic pivot

VWC's capital raise has shifted in three material ways from prior years:

1. From Fund to single-asset LLCs. Fund IV is closed and liquidating in 2026 / 2027. All forward raises are single-purpose LLCs, with the option to aggregate into a portfolio for a later PE-buyer exit (Blackstone-tier).
2. From HNW retail to quasi-institutional. The current 127-LP base averages a \$245,000 check; the new target is two to three Family Offices at \$10 million-plus each — the most material strategic change.
3. From product pitch to capital partnership. The headline ask is a \$30 million revolving Line of Credit from a Family Office equity partner, refinanced out within 90–100 days of close-of-escrow. This unlocks all-cash acquisitions and operational speed.

How to read this document

- Section 2: Strategic framework — priority matrix and channel-by-persona map.

- Section 3: Detailed personas — ten profiles, each with demographics, motivations, jobs-to-be-done, where to find them, top objections with responses, opening hook, and lead assets.
- Section 4: Channel partners — three referral and gatekeeper profiles.
- Section 5: 2026 / 2027 capital plan — how the personas combine to hit the targets.
- Section 6: Open questions — items requiring SDC's input before the lead-gen engine can launch at full speed.

Each persona profile is designed to be a stand-alone briefing for the team member running that channel. The intent is for SDC to red-line, approve, or extend each persona before any outreach begins.

Strategic framework

Priority matrix

Personas ranked by 2026 strategic priority — a function of capital concentration, time-to-cash, and strategic fit with the In-N-Out vision.

Rank	Persona	Best-fit product	Check size	Time-to-cash
1	P1 Family Office Capital Partner	\$30M LOC + anchor LP	\$10M – \$20M+	3–9 months
2	P3 1031 Exchangor	Sidecar (1031-eligible)	\$500K – \$5M	Days–weeks
3	P4 Income-Seeking Retiree	Direct deal	\$100K – \$1M	4–12 weeks
4	P2 HNW CRE Veteran	Sidecar	\$500K – \$2M	2–8 weeks
5	P5 SDIRA Self-Directed Investor	Direct deal	\$100K – \$500K	2–8 weeks
6	P8 Recently Liquid	Sidecar / Direct deal	\$250K – \$5M	6–16 weeks
7	P7 Tech / Medical Wealth Builder	Direct deal / Sidecar	\$100K – \$500K	4–10 weeks
8	P6 RIA Channel	Bundle across deals	\$1M – \$10M aggregated	6–18 months
9	P9 Faith-Based Investor	Direct deal / Sidecar	\$100K – \$1M	3–6 months
10	P10 Co-Sponsor	Direct deal / Sidecar	\$100K – \$1M	2–6 weeks

Channel-by-persona map

Where each persona is reached most efficiently:

Persona	Primary channels
P1 Family Office	Family Office Exchange (FOX), Buttonwood, Multi-Family-Office RIAs (Cresset, Aspiriant, Mariner, Pathstone), Tiger 21, R360, business-sale liquidity events
P2 HNW CRE Vet	VWC HubSpot CRM, Marcus & Millichap alumni, IMN, Bisnow, OC/SD direct mail (15K scrubbed), CCIM/IREM/AAOC chapters
P3 1031 Exchangor	Qualified Intermediaries (IPX1031, Asset Preservation, FAI, Madison 1031), CPAs, estate attorneys, VWC Exchange Services
P4 Income Retiree	VWC HubSpot warm pool (127 LPs), AppFolio Investor portal, Bisnow, IMN, RIA channel

Persona	Primary channels
P5 SDIRA	Equity Trust, STRATA, Quest, Madison Trust, Directed IRA, Entrust, Pacific Premier, Kingdom Trust webinar circuit
P6 RIA	FPA chapters, NAPFA, IMCA, CFA Society, SEC IAPD, LinkedIn Sales Nav, Merrill / MS / UBS alumni
P7 Tech / Medical	LinkedIn Sales Nav (titles + geography), AMA, ADA, ABA, IEEE, BiggerPockets, Wealth Formula, Passive Income MD
P8 Recently Liquid	CPAs, M&A advisors, estate attorneys, BizBuySell, IBBA, NCF / Ron Blue (Christian wealth-transfer)
P9 Faith-Based	NCF, Halftime Institute, C12 Group, Pinnacle Forum, Generous Giving, Kingdom Trust, Convene
P10 Co-Sponsor	BiggerPockets Pro, GoBundance, Sumrok, IMN, Best Ever Conf, SUMMIT Multifamily

P1. Family Office Capital Partner

Tagline

The \$10M+ anchor relationship. Top strategic priority — owner-level commitment.

Strategic priority	Best-fit product	Check size	Time-to-cash
#1 of 10	\$30M revolving Line of Credit + anchor LP across single-asset LLCs	\$10M – \$20M+ per relationship (target: 2–3 Family Offices)	3–9 months (relationship-led)

Profile

Entity type	Single Family Office, Multi-Family Office, or institutional family-controlled trust
AUM	\$50M – \$2B+
Principal age	50–75; second-generation often 35–55
Geography	Southern California first; nationwide acceptable; Texas a wildcard via SDC's home network
Investment committee	1–5 members
Existing alts allocation	20%–60% of portfolio in alternatives

Psychographics

- Seeks uncorrelated, tax-efficient returns
- Values relationship and transparency over flashy returns
- Long memory — one bad sponsor experience colors the next decade
- Cares deeply about alignment (sponsor co-invest, GP capital at risk)
- Often values-driven — many have a philanthropic mandate; some have explicit faith identity

Jobs-to-be-done

- Deploy \$10M–\$50M of dry powder into an asset class that pays without daily news risk
- Find 2–3 trusted-sponsor relationships per asset class — concentrate, don't spread
- Maintain optionality (revolving credit beats one-shot equity)
- Receive conservative, predictable, tax-advantaged returns

Pain points

- Too many syndicators pitching, too little operator-quality sponsorship
- Inconsistent quarterly reporting from sponsors
- Capital lockup conflicts with family liquidity events
- Scaled too fast with the wrong sponsor and got stuck

Where to find them

- Family Office Exchange (FOX) — confirmed VWC LP-converting conference
- Buttonwood — confirmed converter
- Lido Family Office Symposium
- iConnections, Tiger 21, R360 (peer networks)
- Multi-Family-Office RIAs: Cresset, Aspiriant, Mariner, Hightower MFO, Pathstone, Geller Advisors
- Probate and business-sale trigger events (founder-liquidity moments)

Top objections and responses

Objection	Response
Why not buy the assets ourselves?	You'd need an in-house 56-person multifamily operating team. We have one. You get the operator without owning the operator.
What's your concentration risk?	Single-asset LLCs, 5–75 units, ≤50% LTV after month 6, 18–24 month cycle. You underwrite one deal at a time.
Track record?	227 units, 24 deals, 23.95% average levered project return — including a -33% loss we'll walk you through transparently.
Why a LOC and not equity?	We refinance you out within 100 days. You earn a coupon, we get speed-to-close. Then we recycle.

Opening hook

Outreach hook

\$30M revolving line of credit, 90-day refinance cycle, backing a 12-year SoCal multifamily fix-and-flip operator with a 56-person vertically integrated team. We're inviting two or three Family Offices into this structure.

Lead with these assets

- Track record one-pager (24 deals, with the honest -33% disclosure)
- Capital Raise structure brief (the \$30M LOC mechanics)
- Encinitas Investment Summary as proof-of-product

P2. HNW CRE Veteran ("Tired Landlord")

Tagline

Owned the duplex, sold it, doesn't want to be a landlord again — but loves the asset class.

Strategic priority	Best-fit product	Check size	Time-to-cash
#4 of 10	Sidecar single-asset LLC (\$500K minimum, 1031-eligible)	\$500K – \$2M per deal	2–8 weeks

Profile

Age	50–70
Net worth	\$5M – \$50M (excluding primary residence)
Income	\$300K – \$2M / year
Profession	Retired or semi-retired; often ex-business-owner or licensed professional
Location	SoCal-heavy; comfortable with OC / SD coastal
Past behavior	Owned 1–10 multifamily properties directly; has done 1031 exchanges

Psychographics

- Tired of toilets, tenants, and trash — but still loves the asset class
- Wants passive exposure without the operating headache
- Values operator competence over slick marketing
- Tax-savvy — understands depreciation, 1031, cost segregation
- Skeptical by default — has seen sponsors fail

Jobs-to-be-done

- Recycle existing real estate equity into passive vehicles
- Continue tax-deferral via 1031
- Stay in SoCal coastal (knows the market, won't leave it)
- Get back to family, hobbies, and health — escape the landlord trap

Pain points

- 3 a.m. calls, evictions, broker fees, plumber bills
- Hard to scale — each property eats time
- 1031 pressure: 45 days to identify, 180 days to close
- Doesn't trust REITs (correlated to public markets, no tax shelter)

Where to find them

- VWC's HubSpot CRM (existing 127-LP base)
- Marcus & Millichap, Berkadia, NMHC alumni networks (SDC's broker pedigree)
- 1031 Qualified Intermediary referrals
- IMN multifamily forum, Bisnow events
- OC / SD apartment-owner direct mailing lists (VWC has scrubbed ~15,000)
- Local OC / SD CCIM, IREM, AAOC chapters

Top objections and responses

Objection	Response
I'd rather own it myself.	You've already done that. The 18-month sidecar gives you the upside without the toilet calls.
Why VWC vs. another sponsor?	Vertically integrated 56-person team, in-house construction. We don't subcontract the value-add.
What's the IRR?	23.95% average levered project return across 24 deals — including the loss. Per-deal numbers are in the offering summary.
Concentration risk in SoCal?	Yes — that's the bet. You know coastal SoCal as well as we do. The sub-institutional 5–75 unit segment is where institutions can't compete.

Opening hook

Outreach hook

You sold the 8-plex. You're done with 3 a.m. calls. But you're not done with the asset class. Here's what an 18-month sidecar in Encinitas looks like — same returns, none of the toilets.

Lead with these assets

- Encinitas Investment Summary
- 374 Cypress and 4921 Charlene case studies (the home-runs)

- 1031 enablement one-pager

P3. 1031 Exchangor

Tagline

They have 45 days. We have a deal closing now.

Strategic priority	Best-fit product	Check size	Time-to-cash
#2 of 10	Sidecar single-asset LLC (1031-eligible)	\$500K – \$5M per exchange	Days to weeks (forced by IRS deadlines)

Profile

Age	45–80
Net worth	\$2M – \$50M
Trigger	Just sold or about to sell appreciated real estate
Location	National (IRS rules don't care)
Past behavior	Has done at least one prior 1031, or first-timer with strong CPA guidance

Psychographics

- Solving a tax problem, not buying an investment
- Time-stressed — the IRS clock is the boss
- Values certainty of close above everything
- Often emotionally reluctant to sell (legacy property), looking for honorable redeployment

Jobs-to-be-done

- Identify replacement property within 45 days
- Close on replacement within 180 days
- Avoid boot (taxable gain on un-reinvested cash)
- Avoid a sponsor blowing the close

Pain points

- Deadline anxiety
- Few viable sponsors with deals closing on the right window

- Worry about non-1031-compliant structures masquerading as compliant

Where to find them

- 1031 Qualified Intermediaries: IPX1031, Asset Preservation, First American Exchange, FAI, Madison 1031, Accruit
- CPAs with HNW client books
- Estate attorneys
- VWC's own seller pipeline (sellers exiting via 1031)
- VWC Exchange Services capability — a hook for investors without an accommodator

Top objections and responses

Objection	Response
Will we close in time?	We've closed 24 deals on schedule. Here's our QI list and the closing timeline for the current sidecar.
Is this truly 1031-compliant?	Single-asset LLC, like-kind real property, your ownership interest is real-property-eligible. Confirmed by our QI partners.
What if the deal falls through?	We work with your QI on backup ID. We maintain 2-3 deals in pipeline for exactly this.

Opening hook

Outreach hook

Need replacement property? We have a 21-unit Encinitas value-add closing in days. Single-asset LLC, 1031-eligible, \$500K minimum. Here's the QI documentation.

Lead with these assets

- Active offering summary (Encinitas, Knott)
- 1031 process one-pager
- VWC Exchange Services brief

P4. Income-Seeking Accredited Retiree / Pre-Retiree

Tagline

They want the coupon, not the appreciation.

Strategic priority	Best-fit product	Check size	Time-to-cash
#3 of 10	Direct deal (\$100K minimum); legacy Fund IV holders recycling distributions	\$100K – \$1M per deal	4–12 weeks

Profile

Age	55–75
Net worth	\$2M – \$15M
Income source	Retirement income, pension, Social Security, prior business sale
Profession	Retired executive, doctor, attorney, business owner
Location	National, but SoCal-heavy in VWC's existing book

Psychographics

- Income beats capital appreciation in life-stage priorities
- Capital preservation is non-negotiable
- Tired of public-market volatility
- Wants predictable distributions they can plan around
- Values stewardship language — they're thinking about legacy

Jobs-to-be-done

- Generate \$50K – \$300K / year of tax-advantaged passive income
- Preserve principal for heirs
- Diversify away from public markets
- Stay aligned with personal values

Pain points

- Rates are volatile; a bond ladder doesn't beat inflation
- Public REITs are correlated to stocks (defeats the purpose)
- Don't want to be active landlords at 65+
- Worry about sponsor solvency in a downturn

Where to find them

- VWC's existing HubSpot list (~127 LPs, ~85% repeat — many here)
- Bisnow and IMN events
- RIA channel feeding income-seeking clients (P6)
- AppFolio Investor portal — current investors are the warm pool for additional placements

Top objections and responses

Objection	Response
What's the yield?	[Confirm specifics with SDC — pull from current offering]
How illiquid is it?	Single-asset LLC, 24–30 months. Plan around it — distributions begin in month [X]. This isn't an emergency-fund vehicle.
What if you go bust?	Conservative leverage ($\leq 50\%$ LTV after month 6), 24-deal track record, in-house operating team. Here's the portfolio status snapshot.
What about my heirs?	Step-up basis at death; the 1031 chain still works. Your CPA will love it.

Opening hook

Outreach hook

For accredited investors who'd rather collect a quarterly check than watch CNBC. Direct-deal multifamily, tax-advantaged income, 12-year track record.

Lead with these assets

- Quarterly distribution history (request from SDC)
- "Letter to Investors" blog (warm tone)
- "REITs vs. Direct Investing" blog (positioning piece)

P5. SDIRA Self-Directed Investor

Tagline

Their IRA is sitting in cash. We have the asset.

Strategic priority	Best-fit product	Check size	Time-to-cash
#5 of 10	Direct deal (\$100K minimum) — fits IRA economics	\$100K – \$500K per deal	2–8 weeks once warmed via custodian webinar

Profile

Age	35–70
IRA balance	\$100K – \$5M (often roll-overs from 401(k) at job changes)
Custodian	Equity Trust, STRATA, Quest, Madison, Directed IRA, Kingdom Trust
Profession	Wide range — engineers, dentists, pilots, ex-corporate executives
Location	National

Psychographics

- Self-directed means wants control; hates Wall Street defaults
- Educated on alternatives — has read, attended seminars
- DIY mindset; values transparent docs
- Frustrated that IRA cash is doing nothing

Jobs-to-be-done

- Move IRA cash into hard assets
- Keep the tax-deferred wrapper intact
- Find sponsors who accept SDIRA paperwork without friction
- Get clean K-1s and reporting back to the custodian

Pain points

- Most sponsors don't accept SDIRA money (or charge friction)

- UBIT / UDFI confusion on leveraged deals
- Custodian paperwork delays close timelines
- Deal minimums often exceed available IRA cash

Where to find them

- Equity Trust Company
- STRATA Trust Company
- Quest Trust Company
- Madison Trust
- Directed IRA / Directed Trust
- The Entrust Group
- Pacific Premier Trust
- Kingdom Trust (faith-aligned custodian)

Top objections and responses

Objection	Response
Will UBIT / UDFI eat my returns?	On the leveraged portion, yes — we provide the math. Many investors accept it; some use a Solo 401(k) instead.
Will my custodian work with you?	We accept all major SDIRA custodians. Here's our subscription packet calibrated for your custodian.
What's the close timeline?	Allow three weeks for custodian paperwork. We hit hard deadlines — 24 deals on schedule.

Opening hook

Outreach hook

Custodian-side hook: "Your audience is sitting on cash. We have a \$100K-minimum single-asset LLC closing now, fits SDIRA structure, full subscription packet ready. Want us on your next webinar?"

Lead with these assets

- SDIRA-specific subscription packet (build if not extant)
- Direct-deal one-pager
- "How to invest your IRA in real estate" educational piece

P6. RIA / Advisor Aggregating Client Capital

Tagline

One advisor relationship can deliver ten LPs. But it takes a year.

Strategic priority	Best-fit product	Check size	Time-to-cash
#8 of 10	Direct deal + Sidecar bundle, placed across multiple advisor clients	\$1M – \$10M aggregated across an advisor's book	6–18 months to first allocation (strategic build)

Profile

AUM	\$200M – \$2B (sweet spot \$500M – \$1.5B)
Geography	SoCal first; SDC's Merrill / FPA / NAPFA alumni network
Decision unit	Lead advisor + investment committee
Compensation model	Fee-only or hybrid; needs RIA-friendly structure
Past alts allocation	Has done at least one alternative-investment placement

Psychographics

- Compliance-anxious — won't risk franchise on a sponsor blowup
- Values operator track record + clean docs + audit-grade reporting
- Wants to differentiate practice with curated alts access
- SDC's RIA pedigree is a major trust signal — use it

Jobs-to-be-done

- Differentiate practice with curated alts
- Avoid concentration risk for any one client
- Avoid surprise compliance issues
- Get clean reporting to feed client portals

Pain points

- Most sponsors don't speak RIA — opaque docs, no IC briefings
- Hidden retro fees create compliance nightmares
- Sponsor reporting cadence inconsistent with quarterly client review

Where to find them

- FPA chapters (VWC has a calibrated FPA deck)
- NAPFA, IMCA, CFA Society SoCal
- SEC IAPD database, filtered SoCal + alts-friendly
- LinkedIn Sales Navigator: "RIA" or "wealth advisor", CA, \$300M+ AUM
- Merrill Lynch, Morgan Stanley, UBS alumni — SDC's 16-year pedigree

Top objections and responses

Objection	Response
How are you compensated?	GP carry plus management fee, fully disclosed. No retros to advisors. RIA-friendly comp.
Can you support quarterly client reporting?	AppFolio Investor portal feeds client statements. Sample report attached.
What's your worst deal?	630 W Washington, San Diego, -33%. Here's what happened, what we learned, and what we changed.

Opening hook

Outreach hook

Sponsor founded by a 16-year Merrill VP. RIA-friendly structures, AppFolio-fed reporting, 12-year track record across 24 deals. Looking to brief your IC.

Lead with these assets

- FPA deck (already calibrated for advisor audience)
- SDC bio (RIA-to-sponsor narrative)
- Track record one-pager + transparent loss disclosure

P7. Tech / Medical High-Income Wealth Builder

Tagline

Earning \$500K – \$2M per year, looking for tax-advantaged offsets.

Strategic priority	Best-fit product	Check size	Time-to-cash
#7 of 10	Direct deal (\$100K) entry; Sidecar (\$500K) once they recycle once	\$100K – \$500K per deal	4–10 weeks

Profile

Age	35–55
Income	\$300K – \$2M / year (W-2 or partnership)
Net worth	\$1M – \$10M (accumulating)
Profession	Tech executive, software engineer (post-IPO), surgeon, anesthesiologist, dentist, partner attorney, consultant
Location	SoCal-heavy — but tech also reaches SF, Seattle, Austin

Psychographics

- High-income, time-poor
- Tax burden is acute — wants depreciation
- Comfortable with risk; data-driven; reads finance blogs and podcasts
- Wants passive by definition (W-2 doesn't allow active landlord time)
- Often ESG / values-curious

Jobs-to-be-done

- Reduce taxable income via depreciation pass-through
- Diversify outside W-2 / RSU concentration
- Build passive income streams for future optionality
- Avoid being a landlord while owning real assets

Pain points

- W-2 income is fully taxed; hates it
- Stock concentration risk (RSUs, options)
- Time-poor — can't actively manage anything
- Distrust of polished-but-vague sponsors

Where to find them

- LinkedIn Sales Navigator (job titles + SoCal + accredited-likely income tier)
- Professional associations: AMA, ADA, ABA, IEEE
- Tax-strategy podcasts and forums (BiggerPockets, Wealth Formula, Tax-Smart Real Estate Investors)
- Tech-IPO liquidity events (lockup expirations)
- Doctor-specific syndication-curious communities (Passive Income MD, Semi-Retired MD)

Top objections and responses

Objection	Response
Will the depreciation actually offset my W-2 income?	Passive losses don't offset W-2 unless you qualify as REPS, but they offset other passive income, carry forward, and offset gain on sale. Your CPA will work the numbers.
Why not buy a duplex myself?	You'd spend five hours a week being a landlord. At your billable rate, that's the real cost.
How do I exit if I need cash?	You don't, mid-deal. 24–30 month hold. Don't put rainy-day money in.

Opening hook

Outreach hook

For high-W-2 professionals: \$100K minimum, single-asset multifamily, depreciation pass-through, 24-month cycle. We do the landlording. You file the K-1.

Lead with these assets

- Tax-benefits one-pager (depreciation, K-1, passive losses)
- Direct-deal sample (e.g., Pacific Crest)
- LP testimonial from a surgeon or engineer (request from SDC)

P8. Recently Liquid (Business Sale, Inheritance, RSU Vest)

Tagline

Just hit a liquidity event. \$1M–\$10M sitting at Schwab. Now what?

Strategic priority	Best-fit product	Check size	Time-to-cash
#6 of 10	Sidecar (\$500K) for meaningful first allocation, or Direct deal (\$100K) toe-dip	\$250K – \$5M (often staged across multiple deals)	6–16 weeks

Profile

Age	35–70
Trigger event	Sold a business, inherited estate, IPO/RSU vest, divorce settlement, retirement lump sum
Liquid capital	\$1M – \$20M new cash
Investment sophistication	Low to moderate — often first-time private investor
Location	National

Psychographics

- Bewildered by options — Wall Street sharks circling
- High anxiety about preserving the gain
- Values education and handholding
- Often introduced via a professional advisor (CPA, attorney, RIA)

Jobs-to-be-done

- Deploy cash before inflation erodes it
- Diversify across asset classes
- Find sponsors that won't blow up the windfall
- Maintain flexibility to live off the capital

Pain points

- Decision paralysis
- Spouse and family pressure
- Statistical likelihood of a bad first sponsor experience
- Tax surprise on the liquidity event itself

Where to find them

- CPAs and M&A advisors flagging client liquidity events
- Estate attorneys at probate or inheritance moments
- Business-broker networks (BizBuySell, IBBA chapters)
- Wealth-transfer events (NCF, Ron Blue Trust for Christian families)
- Local Christian estate-planning networks (overlap with P9)

Top objections and responses

Objection	Response
I don't know what I'm doing — how do I evaluate?	Bring your CPA and attorney to the meeting. We'll walk all three of you through the same docs we'd give an institutional partner.
What if I need the money?	Don't put recently-liquid money you might need into this. Reserve 12–18 months of living expenses outside of it. Your advisor will set the bucket sizes.
What if you go bust?	Conservative leverage ($\leq 50\%$ LTV after month 6), 24-deal track record, in-house operating team. Here's the portfolio status snapshot.

Opening hook

Outreach hook

Your client just sold the business. They have 12 months to deploy. We have a 24-month single-asset multifamily with full reporting and a 12-year sponsor track record.

Lead with these assets

- Recently-liquid playbook (build): "What to do with the cash for the first 12 months"
- Track record one-pager
- "Letter to Investors" blog (warm tone)

P9. Faith-Based / Values-Aligned Investor

Tagline

They invest where their values invest. Subtle but unashamed fit.

Strategic priority	Best-fit product	Check size	Time-to-cash
#9 of 10	Direct deal (\$100K) entry; Sidecar (\$500K) once relationship is established	\$100K – \$1M per deal	3–6 months (relationship-led)

Profile

Profile types	Christian-owned family foundations, HNW Christian families, denominational endowments (small), Christian business owner-operators
Net worth	\$2M – \$50M
Age	45–75
Faith identity	Practicing Christian — often involved with NCF, Halftime Institute, C12, Pinnacle Forum, Generous Giving
Geography	National, with strong nodes in OC, SD, Dallas, Atlanta, Nashville

Psychographics

- Faith and stewardship are inseparable from money decisions
- Values relationship and reputation over raw returns
- Long-time-horizon, multi-generational thinking
- Allergic to greedy sponsors — but loves operators with character
- Comfortable with explicit faith vocabulary

Jobs-to-be-done

- Steward family or foundation capital with measurable returns
- Align investment partners with values
- Generate income that funds philanthropic giving
- Build a legacy with operators they trust

Pain points

- Few faith-aligned operators with institutional-quality track records
- Many Christian-branded sponsors are weaker operators
- Reluctance to be cold-pitched in faith communities

Where to find them

- National Christian Foundation (NCF) — major donor-advised funds with allocations
- Halftime Institute alumni
- C12 Group — Christian CEO peer groups
- Pinnacle Forum, Generous Giving, Inspire Investing community
- Kingdom Trust (Christian SDIRA custodian — overlap with P5)
- Local Christian business networks (SoCal CEO Forum, Convene)

Top objections and responses

Objection	Response
Are you faith-led, or just faith-friendly?	Read the Core Values doc. We don't lead with faith publicly — but our team and our underwriting are run on it. Subtle but unashamed.
What's your charitable giving structure?	[Confirm with SDC — there's likely a giving practice that should be documented for this audience.]
How do you handle losses?	Transparently. See 630 W Washington. Clear conscience is one of our two core 'we have' values.

Opening hook

Outreach hook

VWC is a SoCal multifamily sponsor founded by a 16-year Merrill VP and faithful steward, with a 12-year track record and single-asset LLC structure. We're inviting introductions, not cold-pitching faith communities.

Lead with these assets

- VWC Core Values document
- SDC bio (with the diverse-communities pilot story)
- "Letter to Investors" blog

- "Please Define Risk" article

P10. Co-Sponsor / Operator's Personal Capital

Tagline

Other operators investing their own money in deals they don't run.

Strategic priority	Best-fit product	Check size	Time-to-cash
#10 of 10	Direct deal (\$100K) or Sidecar (\$500K)	\$100K – \$1M per deal	2–6 weeks (operators decide fast)

Profile

Profile	Other RE syndicators, GP-track operators, fix-and-flip pros
Net worth	\$2M – \$20M
Investable	\$100K – \$1M per deal of personal capital
Geography	National — the RE network is well-connected nationally

Psychographics

- Knows the business — pitch is technical, not emotional
- Looks for operators in adjacent or non-competing markets
- Recognizes craft — appreciates VWC's vertical integration
- Gives credibility halo via word-of-mouth in their networks

Jobs-to-be-done

- Diversify personal capital outside their own deals
- Learn from other operators' execution
- Build reciprocal LP/GP relationships
- Generate passive income while operating their own GP business

Pain points

- Don't want to be in directly competing markets
- Suspicious of marketing-heavy sponsors (recognize the tells)

- Cycle-anxious — operators are most cycle-aware

Where to find them

- BiggerPockets Pro / Inner Circle networks
- GoBundance (operator-investor peer group)

Top objections and responses

Objection	Response
Why your market over mine?	If you're in TX or FL, SoCal coastal is a perfect diversifier. You can't operate here from there.
Show me your underwriting.	In-house team, full-time construction manager, ≤50% LTV after month 6. Here's a sample model.
What's your basis vs. comps?	[Show recent deal comp work — they'll respect it.]

Opening hook

Outreach hook

Operator-to-operator: SoCal coastal multifamily sidecars. ≤50% LTV, 18-month cycle, vertically integrated 56-person team. \$100K minimum for accredited, \$500K for the 1031-eligible single-asset LLC.

Lead with these assets

- Underwriting sample (request from SDC)
- Vertical-integration pitch (the 35-tradesmen story)
- Track record with honest loss disclosure

Channel partners

These are not customers but gatekeepers. Investing in these relationships compounds — every introducer reached can deliver multiple personas over time.

CP1. CPA / Estate Attorney / 1031 Qualified Intermediary

Role	Referral partner — flags client liquidity events and 1031 deadlines
Refers	P3 (1031 Exchangors), P4 (Income Retirees), P8 (Recently Liquid)
What they want	Reliable sponsor + clean K-1 + zero compliance noise
Compensation	Typically referral fee or co-marketing — confirm with SDC what's allowed under SEC solicitor rules
Outreach approach	Quarterly portfolio update + invite to one private investor briefing per year. Build a 'trusted-sponsor' partnership pack.

CP2. Third-Party SDIRA Custodian

Role	Channel host for the SDIRA-holder audience (P5)
Refers	P5 (SDIRA Investors) at scale via webinars and platform promotion
What they want	Educational sponsors who don't sell — that's their compliance posture. They want speakers their audience trusts.
Compensation	No direct payment. Custodian benefits from client deployment fees once investments are placed.
Outreach approach	One-page sponsor brief + 30-minute intro deck for custodian education teams. Pitch hosting an educational VWC webinar. Targets: Equity Trust, STRATA, Quest, Madison, Directed IRA, Entrust, Pacific Premier, Kingdom Trust.

CP3. Christian Business Network Introducer

Role	Wedge into the faith-based investor community (P9)
Refers	P9 (Faith-Based Investors) — relationship-led only
What they want	Operators with character and competence in equal measure

Compensation	None (referral-driven). Reciprocity through relationship.
Outreach approach	Get warm introductions only — never cold outreach into faith communities. Targets: NCF (National Christian Foundation), Halftime Institute, C12 Group, Pinnacle Forum, Generous Giving.

2026 / 2027 capital plan

How the personas combine to deliver VWC's stated capital goals.

Capital goals

Year	Goal	Primary KPI
2026	\$10M raised	Capital raised — not investor count
2027	\$25M raised	Capital raised — fewer, larger investors

Allocation hypothesis — 2026 (\$10M target)

This is a working hypothesis. Allocate aggressively to P1 (Family Office) and the warm-pool re-engagement personas (P3, P4) — they convert the fastest at the lowest cost.

Persona	Capital hypothesis	Strategic rationale
P1 Family Office	\$5M – \$7M	One Family Office anchor at \$5M+ delivers half the year's target
P3 1031 Exchangor	\$1M – \$2M	Time-pressured = fastest cash; ride the QI / CPA referral pipeline
P4 Income Retiree (HubSpot warm)	\$1M – \$1.5M	Re-engage 127 existing LPs; cheapest cost per dollar raised
P2 HNW CRE Vet	\$500K – \$1M	Sidecar fits perfectly; M&M alumni network
P5 SDIRA via Custodian	\$500K – \$1M	Build first custodian webinar relationship in 2026
P6 / P7 / P8 / P9 / P10	Backfill	Long-cycle — cultivate for the 2027 pipeline

Allocation hypothesis — 2027 (\$25M target)

By 2027, the deeper-cycle personas come online. The In-N-Out vision is now visible: every persona has a working channel, and the capital flow becomes more diversified.

Persona	Capital hypothesis	Strategic rationale
P1 Family Office	\$10M – \$15M	Scale to 2–3 Family Office relationships; LOC structure live

Persona	Capital hypothesis	Strategic rationale
P5 SDIRA via Custodian	\$3M – \$5M	Custodian webinar circuit institutionalized
P6 RIA Channel	\$3M – \$5M	Year-1 educational nurture converts into placements
P3 / P4 / P2	\$2M – \$4M	Warm pool continues to compound
P7 / P8 / P9 / P10	Backfill	Healthy diversification

The In-N-Out discipline

Three principles to maintain consistency across all ten personas:

1. Simple menu. Three products only — Fund IV (legacy), Sidecar, Direct deal — plus the LOC ask for P1. We do not custom-build for one investor.
2. Consistent quality. Every persona gets the same operator-quality due diligence, the same reporting cadence, the same character and competency we'd give a Family Office.
3. Pipeline orientation. Every channel is a continuous pipeline, not a one-shot sale. Track conversion ratios per persona quarterly.

Open questions for SDC

These items require SDC's input before the lead-gen engine can launch at full speed. None of them block the personas in this document — they refine outreach mechanics and copy precision.

Triage — if we get one 30-minute call, ask these first

4. 506(b) vs. 506(c)? Gates whether cold outreach to accredited prospects is legally permitted.
5. \$30M LOC structure — pari-passu equity, mezz-style preferred return, or pure debt? Family Offices will ask within five minutes.
6. Per-product preferred return and waterfall — needed for all collateral.
7. HubSpot tagging of 127 LPs — by deal, by total invested, by 1031/SDIRA/cash, by faith-aligned. Gates re-engagement campaigns.
8. Knott Townhome status and named active offerings — gates immediate outreach.
9. Leadership Team bios — six people including SDC. Gates capacity planning for who else takes investor meetings.
10. Confirmed 2026 conference calendar (TNDDA, FOX, Buttonwood, Fact Right) and SDC's intent (attend, speak, or sponsor).

Compliance and solicitation

- Blue-sky filings — list of states with active filings vs. states to avoid.
- Referral-fee compliance — what CPA, attorney, or RIA referral compensation structures are allowed under SEC solicitor rules?

Deal economics

- GP co-invest percentage — how much skin does VWC put in each deal?
- Asset management, acquisition, and disposition fees — what does VWC charge?
- Distribution cadence — quarterly? Semi-annually? Begin month X post-close?

Active pipeline and capital status

- Is the Encinitas (330 W I Street) deal still raising, or fully subscribed?
- \$30M LOC — any Family Office LOIs or soft-circles already in flight?

- Pacific Crest (referenced as the Direct-deal example) — what is it specifically, and what's its status?

Track-record clarifications

- Founding-date reconciliation: 2011 (SDC bio), 2014 (Buyer Profile), or first transaction Mar-2013?
- LP-level returns vs. project-level: average LP IRR after fees on closed deals — the number prospects actually care about.
- Aggregate distributions paid to LPs to date.
- Worst-deal full story (630 W Washington, -33%): what happened, what was the lesson, what changed in underwriting?

Channel specifics

- Named RIA partner firms currently active or warm.
- Custodian relationships in flight — has VWC been on an Equity Trust, STRATA, or Quest webinar before?
- Christian network presence: is SDC active in NCF, Halftime, C12, or Pinnacle today? Any warm introducer?

Tech and operations

- HubSpot — existing pipelines, lists, or sequences in place, or starting from scratch?
- Email-sending domain authentication for cold outreach (SPF / DKIM / DMARC).
- LinkedIn Sales Navigator seat — does SDC or the team have one for prospecting?

Brand and voice

- External use of faith vocabulary — existing line and phrase library, or do we draft and approve?
- Use of SDC's writing in outreach — can we repurpose blog content into email sequences, with credit?
- “As committed to Character as we are to Competency” — a public-facing line we can use, or internal?

Approval and next steps

This document is intended for SDC's review. Recommended next steps:

11. Red-line each persona — confirm, edit, or reject.
12. Resolve the seven triage questions in the Open Questions section.
13. Approve the 2026 capital allocation hypothesis (or adjust).
14. Sign off on the In-N-Out vision as the operating principle for all outreach.

Founder vision (to be confirmed)

"I want to be the In-N-Out for my type of services — catering to all types of clientele and maintaining a pipeline of investors."
