For Family Offices Considering Multifamily Real Estate

VisionWise Capital LLC · Mission Viejo, California
(949) 441-5580 · info@visionwisecapital.com · visionwisecapital.com

For the Family Office Principal or Investment Committee

Why we are writing

We are writing to a small number of Family Offices because we are looking for two or three long-term capital partners — not one hundred investors.

VisionWise Capital has a 12-year track record acquiring and improving sub-institutional multifamily property in coastal Southern California. We have transacted on 24 deals representing 227 units, \$103 million of total cost basis, and a 23.95% average levered project return — including the one paper-loss deal we will walk you through transparently. We are now structuring the next phase of growth around a small number of Family Office capital partnerships.

We are inviting two or three Family Offices to anchor a \$30 million revolving Line of Credit. The structure pays you a coupon. We use the LOC to acquire single-asset multifamily LLCs all-cash. We refinance you out within 90 to 100 days of close-of-escrow. Then we recycle. The result for you: predictable, asset-backed income, with VWC absorbing acquisition execution risk.

Why VisionWise Capital matters to you

- You get the operator without owning the operator. VWC carries 56 staff including a 30-year construction lead and ~35 in-house tradesmen — capability your office shouldn't need to build.
- You concentrate, not diversify. We are inviting two or three Family Offices, not soliciting at scale. Your relationship with our principal is direct.
- Your capital is real-property-backed. Single-asset LLCs at 50% LTV. Refinance-out within 100 days means your exposure on any one deal is short.
- We disclose losses transparently. The 630 W Washington deal in our portfolio is at a paper - 33%. It is in our deck and on this page — because honest track records include the deals that didn't work.

How VisionWise Capital operates

We acquire under-managed multifamily property in coastal Southern California — five to seventy-five units, vintage 1940 to 2000 — and improve it to market standard. The playbook is three steps:

- Acquire patiently. We track properties for months at our price, not the seller's. The completeness of our buyer package wins deals where the highest offer does not.

- Modernize in-house. We employ a full-time construction manager with 30 years of experience and roughly 35 in-house tradesmen. The work is not subcontracted to whoever returns the call.
- Move rents to market. Eighteen to twenty-four months later, the property is at market rents and operating at stabilized cap rates. We hold for income or sell for capital appreciation.

Across 24 deals over 12 years, the portfolio has produced 23.95% average levered project returns — including a -33% paper-loss deal we will discuss before any other deal.

Case study one

374 Cypress Drive — Laguna Beach (Cypress Garden Apartments)

Stabilized · 10 units · Acquired September 2020

Headline

Estimated 72.30% levered project return

A 10-unit "trophy" coastal asset originally built in 1948 — 1,618 feet from Main Beach in Laguna. The acquisition is itself the story: VWC reviewed the property in April 2020 at \$1M below the listing price. The team waited four months while the seller resisted. By July, terms had moved to VWC. The deal closed in September 2020 — VWC's first acquisition for Multifamily Fund IV.

What this deal teaches

Patience on entry, not optimism on exit. The broker cited two reasons VWC won the deal: the completeness of the buyer package, and VWC's existing ownership of two other Laguna Beach properties within walking distance. Submarket density compounds.

The numbers

Acquisition	\$4,050,000 (\$405K/unit)
CapEx	\$391,749
Total cost	\$5,014,749
Loan	\$2,822,000 (56% LTV)
Estimated market value	\$6,600,000 (\$660K/unit)
Estimated profit	\$1,585,251
Levered return	72.30%

Case study two

330 W I Street — Encinitas (North San Diego County)

In renovation · 21 units · Acquired September 2024

Headline

Estimated 38.99% levered project return

VWC's largest acquisition to date — at \$13.15M, roughly 2.3x the size of the next-largest VWC transaction. Encinitas is one of the most supply-constrained coastal submarkets in San Diego County. A heavy reposition with \$1.2M projected CapEx — the largest CapEx commitment in VWC's history.

What this deal teaches

A live demonstration that VWC's operating model — sub-50% LTV, value-add coastal multifamily, in-house construction — holds at scale. The framework didn't change as the firm grew. Only the deal size did.

The numbers

Acquisition	\$13,150,000 (\$626K/unit)
CapEx (projected)	\$1,200,000
Total cost (projected)	\$15,484,500
Loan	\$7,750,000 (50% LTV)
Estimated market value	\$18,500,000 (\$881K/unit)
Estimated profit	\$3,015,500

Levered return	38.99%

Our values, briefly

VisionWise Capital is governed by two pairs of values. The first pair — Entrepreneurial, Strategic Thinker, Resolute — describes how we work. The second pair — Faith and Clear Conscience — describes the standard we hold ourselves to.

Committed to investors over projects.

That is not a tagline. It is one of the four enumerated commitments under our Clear Conscience value, and it is what produced the leverage discipline that protected the portfolio through 2022–2024.

Next step

We would like 30 minutes — in person if you are in Southern California, by phone otherwise — to walk through the LOC structure and answer your underwriting questions before we send you any documents. Please reply to this letter to schedule.

The VWC team has been disciplined enough to say no to most deals for 12 years. We will be equally disciplined in selecting our capital partners.

With respect,

Sanford D. Coggins
