

A company overview

For Investors Working Against a 1031 Identification Clock

VisionWise Capital LLC · Mission Viejo, California
(949) 441-5580 · info@visionwisecapital.com · visionwisecapital.com

For the 1031 Exchangor and Their Qualified Intermediary

Why we are writing

If your 45-day identification window is open, we have current or near-term sidecar deals you can identify today and close on schedule.

VisionWise Capital structures all of our current acquisitions as single-asset LLCs holding like-kind real property. That makes them eligible replacement properties for a 1031 exchange. We have closed 24 deals over 12 years — every one on schedule, never causing a buyer or seller to miss a tax deadline.

If you have a 1031 identification clock running and a \$500,000-plus exchange to complete, we want to share our current Sidecar pipeline so your QI can structure documentation. We also assist investors who do not yet have a Qualified Intermediary relationship.

Why VisionWise Capital matters to you

- Closing certainty. 24 deals closed over 12 years. We do not move closing dates and we do not lose deals at escrow.
- Like-kind eligibility. Single-asset LLC, like-kind real property. Your QI can confirm with us.
- Multiple deals in pipeline. We maintain two to three sidecar deals in active or near-term close — useful for backup identification.
- We help if you don't have a QI. VWC Exchange Services connects investors to vetted accommodators when needed.

How VisionWise Capital operates

We acquire under-managed multifamily property in coastal Southern California — five to seventy-five units, vintage 1940 to 2000 — and improve it to market standard. The playbook is three steps:

- Acquire patiently. We track properties for months at our price, not the seller's. The completeness of our buyer package wins deals where the highest offer does not.
- Modernize in-house. We employ a full-time construction manager with 30 years of experience and roughly 35 in-house tradesmen. The work is not subcontracted to whoever returns the call.
- Move rents to market. Eighteen to twenty-four months later, the property is at market rents and operating at stabilized cap rates. We hold for income or sell for capital appreciation.

Across 24 deals over 12 years, the portfolio has produced 23.95% average levered project returns — including a -33% paper-loss deal we will discuss before any other deal.

Track record at a glance

Metric	Value
Years operating	12
Total transactions	24
Total units acquired	227
Total cost basis	\$103.0M
Total equity invested by LPs	\$53.3M
Realized + estimated profit	\$12.8M
Average levered project return	23.95%
Loss disclosure	1 paper-loss deal of 24, fully transparent

Case study one

4921 Charlene Circle — Huntington Beach

Sold · 6 units · Acquired December 2020 · Sold December 2022

Headline

51.09% levered project return — 24-month cycle

The sister building to VWC's 4931 Charlene Circle property — literally next door, same building footprint, shared driveway. VWC walked into this deal with a verbatim playbook: same neighborhood, same product, same renovation scope, same property manager. From acquisition to sale, exactly 24 months. Improvements were complete by June 2021 in time for the summer leasing season.

What this deal teaches

When you operate enough Southern California coastal multifamily, sister-property acquisitions become low-risk repeats of work you've already proven. Investors paid for an information advantage, not a market guess.

The numbers

Acquisition	\$2,090,000 (\$348K/unit)
CapEx	\$173,950
Total cost	\$2,513,350

Loan	\$1,365,000 (54% LTV)
Sale price	\$3,100,000 (\$517K/unit)
Realized profit	\$586,650
Levered return	51.09%

Case study two

330 W I Street — Encinitas (North San Diego County)

In renovation · 21 units · Acquired September 2024

Headline

Estimated 38.99% levered project return

VWC's largest acquisition to date — at \$13.15M, roughly 2.3x the size of the next-largest VWC transaction. Encinitas is one of the most supply-constrained coastal submarkets in San Diego County. A heavy reposition with \$1.2M projected CapEx — the largest CapEx commitment in VWC's history.

What this deal teaches

A live demonstration that VWC's operating model — sub-50% LTV, value-add coastal multifamily, in-house construction — holds at scale. The framework didn't change as the firm grew. Only the deal size did.

The numbers

Acquisition	\$13,150,000 (\$626K/unit)
CapEx (projected)	\$1,200,000
Total cost (projected)	\$15,484,500
Loan	\$7,750,000 (50% LTV)
Estimated market value	\$18,500,000 (\$881K/unit)
Estimated profit	\$3,015,500
Levered return	38.99%

How a 1031 exchange into a VWC Sidecar works

Replacement property type	Single-asset LLC, like-kind real property
Minimum	\$500,000
Hold period	18–24 months per property (sidecar cycle)
Geography	Coastal Orange County and San Diego County
Closing window	Always operating on a 45/180-day-aware calendar
QI coordination	We coordinate directly with IPX1031, Asset Preservation, FAI, Madison 1031, Accruit, and others
Reporting	AppFolio Investor portal + quarterly written update

Our values, briefly

VisionWise Capital is governed by two pairs of values. The first pair — Entrepreneurial, Strategic Thinker, Resolute — describes how we work. The second pair — Faith and Clear Conscience — describes the standard we hold ourselves to.

Committed to investors over projects.

That is not a tagline. It is one of the four enumerated commitments under our Clear Conscience value, and it is what produced the leverage discipline that protected the portfolio through 2022–2024.

Next step

If your clock is running, please call (949) 441-5580 or reply with your QI's contact information. We will share the active offering summary within one business day.

We treat every 1031 exchange as a calendar problem before it is an investment decision. The investment thesis is straightforward; the calendar requires a sponsor who has run this play 24 times.

With respect,

Sanford D. Coggins

CEO & Founder, VisionWise Capital LLC
