For the Investor Who Just Sold the Business, Inherited the Estate, or Vested the RSUs

Why we are writing

The hardest part of a liquidity event is not getting the money. It is deploying it without giving back the gain.

VisionWise Capital is a 12-year-old private real estate investment firm in coastal Southern California. We work with investors who have meaningful new capital and a strong preference for not losing it. Our typical first-time investor brings their CPA and attorney to the second meeting. We welcome that. Our subscription documents look like documents you would receive from an institutional partner.

If you have recently received a meaningful liquidity distribution and are evaluating where to deploy it, we want a 60-minute first meeting with you and your advisors. We will walk through our underwriting framework, our worst deal, and our current pipeline. No pitch.

Why VisionWise Capital matters to you

- Capital preservation first. We finance most deals at 50% LTV. The portfolio has weathered the 2022–2024 rate environment without forced sales.
- Bring your advisors. CPAs and estate attorneys are part of every meeting we want to have. Their questions sharpen our answers.
- We don't take all your money. The right amount of any one deal is rarely the largest amount. We will help you size sensibly.
- We tell you about the loss first. 630 W Washington, San Diego, -33% paper loss, currently held. We discuss it before we discuss the wins.

How VisionWise Capital operates

We acquire under-managed multifamily property in coastal Southern California — five to seventy-five units, vintage 1940 to 2000 — and improve it to market standard. The playbook is three steps:

- Acquire patiently. We track properties for months at our price, not the seller's. The completeness of our buyer package wins deals where the highest offer does not.
- Modernize in-house. We employ a full-time construction manager with 30 years of experience and roughly 35 in-house tradesmen. The work is not subcontracted to whoever returns the call.
- Move rents to market. Eighteen to twenty-four months later, the property is at market rents and operating at stabilized cap rates. We hold for income or sell for capital appreciation.

Across 24 deals over 12 years, the portfolio has produced 23.95% average levered project returns — including a -33% paper-loss deal we will discuss before any other deal.

Case study one

374 Cypress Drive — Laguna Beach (Cypress Garden Apartments)

Stabilized · 10 units · Acquired September 2020

Headline

Estimated 72.30% levered project return

A 10-unit "trophy" coastal asset originally built in 1948 — 1,618 feet from Main Beach in Laguna. The acquisition is itself the story: VWC reviewed the property in April 2020 at \$1M below the listing price. The team waited four months while the seller resisted. By July, terms had moved to VWC. The deal closed in September 2020 — VWC's first acquisition for Multifamily Fund IV.

What this deal teaches

Patience on entry, not optimism on exit. The broker cited two reasons VWC won the deal: the completeness of the buyer package, and VWC's existing ownership of two other Laguna Beach properties within walking distance. Submarket density compounds.

The numbers

Acquisition	\$4,050,000 (\$405K/unit)
CapEx	\$391,749

Total cost	\$5,014,749
Loan	\$2,822,000 (56% LTV)
Estimated market value	\$6,600,000 (\$660K/unit)
Estimated profit	\$1,585,251
Levered return	72.30%

Case study two

4921 Charlene Circle — Huntington Beach

Sold · 6 units · Acquired December 2020 · Sold December 2022

Headline

51.09% levered project return — 24-month cycle

The sister building to VWC's 4931 Charlene Circle property — literally next door, same building footprint, shared driveway. VWC walked into this deal with a verbatim playbook: same neighborhood, same product, same renovation scope, same property manager. From acquisition to sale, exactly 24 months. Improvements were complete by June 2021 in time for the summer leasing season.

What this deal teaches

When you operate enough Southern California coastal multifamily, sister-property acquisitions become low-risk repeats of work you've already proven. Investors paid for an information advantage, not a market guess.

The numbers

Acquisition	\$2,090,000 (\$348K/unit)
CapEx	\$173,950
Total cost	\$2,513,350
Loan	\$1,365,000 (54% LTV)
Sale price	\$3,100,000 (\$517K/unit)
Realized profit	\$586,650
Levered return	51.09%

How a first investment with VWC works

Entry products	Direct-deal LLC (\$100K min) for accredited investors; Sidecar (\$500K min) is 1031-eligible
Hold period	Direct deal 24–30 months; Sidecar 18–24 months
Geography	Coastal Orange County and San Diego County
Leverage	≤50% LTV after month 6

Our values, briefly

VisionWise Capital is governed by two pairs of values. The first pair — Entrepreneurial, Strategic Thinker, Resolute — describes how we work. The second pair — Faith and Clear Conscience — describes the standard we hold ourselves to.

Committed to investors over projects.

That is not a tagline. It is one of the four enumerated commitments under our Clear Conscience value, and it is what produced the leverage discipline that protected the portfolio through 2022–2024.

Next step

Please reply to this letter or have your CPA or attorney introduce you. We are happy to send our worst-deal post-mortem and our subscription documents in advance — many investors prefer to read them before the meeting.

The most expensive thing a recently-liquid investor can do is move fast. We are happy to move at the pace your advisors set.

With respect,

Sanford D. Coggins
