CYPRESS GARDEN APARTMENTS - NEWEST ACQUISITION

ORANGE COUNTY October 14, 2020, /PRESS/VWC is proud to announce their newest acquisition, a 10-unit multifamily "trophy" property located in one of Southern California's most desirable markets, Laguna Beach CA. The property was purchased for \$4,050,000 and represents VWC's third acquisition in this coastal community.

The Cypress Garden Apartments, originally built in 1948, was formerly known as the "Cypress Garden Resort Hotel & Apartments". Advertising reflected the following:

"Located in Laguna Beach, California's exotic south coast art colony, provides a quiet, luxurious hideaway, a stone's throw from the very center of things. Hospitable, friendly and providing TV for your pleasure."

The Cypress Garden Apartments has a charming courtyard, a community barbecue and sun deck. Just 1,618 feet from Main Beach and 2,268 feet from Downtown Laguna's restaurants and art galleries. The property location is highly desirable for those seeking the Laguna lifestyle of clean air, boutique shops, eateries with an imbedded local culture of art and sand.

VisionWise Capital originally reviewed the property in April 2020 with a strike price that was \$1M below the listing price. Patience and perseverance worked in their favor when in July 2020 the "Seller" became amenable to their offer and began the negotiations to complete the sale. The Broker stated it was the complete "Buyer Package" that made the difference for the Seller, in addition to VWC's ownership of two other properties in town, within walking distance of the subject property.

The Cypress Garden Apartments represents the first acquisition for the "VWC Multifamily Fund IV", which opened on September 1, 2020. Fund IV is focused exclusively on "value-add" properties and employs a conservative loan-to-cost ratio to reduce risk while paying a quarterly distribution to its Investors.

Exterior and interior renovations are already underway at this "hideaway property" with improvements scheduled to be completed by February 2021 in anticipation of an aggressive Spring leasing schedule.

VisionWise Capital provide accredited investors a way to passively add real estate to their investment portfolio, thereby optimizing investment performance with an emphasis on protecting principle by not using more than 65% bank debt. VWC's unique niche of 5 - 50 unit apartment properties located in Southern California makes their strategy a viable Alternative Investment.
