Huntington Beach, CA · 6 units · Acquired January 2023

EST. LEVERED RETURN	ESTIMATED PROFIT

THE OPPORTUNITY

A six-unit Huntington Beach asset — VWC's continued buildout in its core coastal-OC market. By acquisition date (January 2023), VWC had transacted on at least four other Huntington Beach properties (Hoskins, two Charlene Circle deals, 709 Palm) — local market knowledge was deep.

THE STRATEGY

Standard small-unit-count value-add. CapEx of \$212K (8.9% of acquisition) — a moderate reposition. Currently stabilized at well above acquisition basis.

INVESTOR TAKEAWAY

A 49% projected levered return on a small-format coastal deal — earned in a cap-rate environment that has been compressing returns across the rest of the multifamily market. The pattern that keeps repeating in VWC's Huntington Beach work: deep local knowledge plus disciplined entry pricing produces returns that stay above the market average.
